

HYBRID

Aquila

EXTREMELY HIGH YIELDING HYBRID WITH STRONG STEMS AND ANTI-POD SHATTER

- » No 1 yielder on DAFM Recommended List 2019
- » Strong stems, clean canopy
- » Excellent pod shatter resistance

Dariot

HIGH PERFORMING HYBRID VARIETY – SUITABLE FOR MID TO LATE PLANTING

- » Consistent & above average yield in DAFM trials 2016-2018
- » PNN variety (Post NeoNicotinoid) which aids quick establishment without NeoNicotinoid seed dressings
- » Solid overall agronomic package

ES MOMENTO

ES Momento

- » No 1 yielder in DAFM trials 2018
- » Limited availability of seed in 2019

CONVENTIONAL

Anastasia

BEST CONVENTIONAL VARIETY IN IRELAND FOR DRILLING IN AUTUMN 2019

- » Yields comparable to hybrids
- » Sets the standard for stem stiffness in DAFM trials
- » Very good disease resistance to Light Leaf Spot and Stem Canker

Clearfield® - expanding the WOSR area in 2019

What is Clearfield®?

A novel herbicide solution to brassica weeds (e.g. Charlock, Runch etc.) or a legacy population of volunteer brassicas (e.g. fodder rape, mustards etc. in winter oilseed rape.)

Very successful on farm in Ireland in 2018/2019 season.

Phoenix CL

- » Exceptional autumn vigour and good spring development; which suits most soil types
- » Offers added pod shatter protection, helping to maximise growers yields at harvest

SPRING OILSEED RAPE

LUMEN

Lumen

A RELIABLE SPRING RAPE THAT HAS PERFORMED REALLY WELL ON IRISH FARMS

- » Very stiff straw and good pod shatter resistance so reliable in an Irish harvest
- » Has yielded over 3 t/ha under Irish conditions
- » Also a top variety in the UK from the No 1 SOSR breeder, DSV
