

GARRUS

All you want
in one variety

- Highest yielding variety in Rec. List Trials, 2014
- Up for recommendation post harvest 2015
- Highest yielding in early sown official trials in 2014, further testing required to deem its suitability for early sowing
- Excellent disease resistance

Unique as
it's the only Irish
variety specifically
selected from the
Seedtech Nursery
Programme

"Garrus combines a complete package of high yield, strong septoria tritici resistance and good grain quality to deem it a very suitable variety for Irish growers"

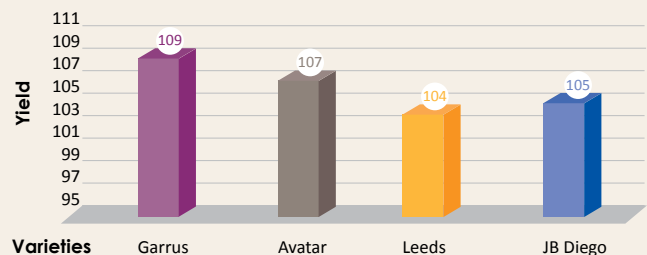

Patsy Kehoe,
Seedtech Trials Manager

LEEDS

Follow the
LEEDER!

- High yielding feed wheat - provisionally recommended in 2015
- Very good straw agronomy package
- Progressing successfully in UK trials
- Late developer, suitable for early sowing
- Moderate resistance to Fusarium
