

LAUREATE

SPRING MALTING BARLEY

VARIETY PROFILE / YIELD

VARIETY	YIELD	MILDEW	RHYNCHO	NET BLOTCH	LODGING RESISTANCE	KPH
LAUREATE	101	8	7	8	4	65.7
Planet	101	8	5	5	5	66.5
Gangway	99	8	5	8	6	68.2

SOURCE: DAFM MALT LIST 2021

SUGGESTED AGRONOMY

SEEDING RATE:	350 seeds/m ²
TARGET PLANT COUNT:	300 plants/m ²
TARGET HEAD COUNT AT:	1000 heads/m ²
ROTATION:	Avoid years 1-3 after ley, suits long term arable rotations
BASE FERTILIZER:	Ensure good potassium (K) levels, normal lime and Phosphorous (P)
NITROGEN FERTILIZER:	Max 140 kg/ha (112 units/ac) - adjust for organic manures etc Typically LAUREATE receives 125kg N/ha (100 units/ac) to manage lodging and achieve exceptional yields
FUNGICIDE:	Normal/reduced programs suit LAUREATE as excellent disease resistance
PGR:	Apply PGR to reduce lodging risk such as ccc/moddus/Medax Max at gs 30-32 or Terpal/Medax Max gs 32-39

CONSULT AN IASIS APPROVED AGRONOMIST FOR SPECIFIC PGR ADVICE

LAUREATE

SPRING BARLEY

- ✓ High yielding malt barley on DAFM list 2021
- ✓ Excellent disease resistance - our cleanest barley
- ✓ Zero-GN variety so flexible for end use markets
- ✓ Requires straw management to achieve top yields

EXCEPTIONAL YIELDS IN LOWER NITROGEN SITUATIONS
